Since my arrival December 12, 2000 my case Manager Mr. T.P. BRZUSTOWICZ has virtually ignored me since I informed him he erred on my progress report, when he indicated I did not program. I was in the CODE program, as well as completing parenting class. He had promised to send me an updated copy of the progress report. Although I submitted several requests, the updated progress report failed to materialize.

He also promised to send an updated (corrected) copy of my inmate Classification report, which indicated I had 9 points. Upon several requests that never materialized. In addition he told me he would contact the prosecutor in the case I provided assistance, to try and get my security level lowered, that never materialized either.

He promised to obtain prosecutor Kim Bergers and my minister's addresses so I could contact them by mail, to aid my cause, that never materialized.

Finally, regarding a civil Action I have in Pennsylvania, he was suppose to obtain a Civil No. so I could communicate to the Court, concerning my Forma Pauperis Status. Nothing Materialized on that end either.

On Wednesday evening 2/14/01 Tim Majurus a representative from I.T.S. stopped by my cell with a handful of cop-outs (inmate request forms) dated 12/18/2000. He informed me he had just received them from a C.O. He explained this was out of the ordinary that he should have received them the next day.

Apparently staff members are destroying or waylaying my cop-outs and mail. Almost all of my cop-outs go unanswered. I have been placed in a state of almost total incommunicado since my arrival at U.S.P. Leavenworth on December 12, 2000.
